

The NEUTON™ Cordless Electric Mower!

Introducing the Revolutionary NEUTON™ Cordless Electric Mower — The SMART Mower for Small Lawns!!

The NEUTON™ Cordless Electric Mower uses no gas or oil, so it's quiet, clean, and starts instantly — every time! It is lightweight, so it's easy for anyone to use. So economical it costs just 10¢ to mow your lawn and never needs a tune-up. It's the only lawn mower that will also TRIM around trees and EDGE along your walk or driveway.

REVOLUTIONARY LIFT-OUT BATTERY

provides extended running time without having to push and carry oversized (and heavy!) batteries onboard. Also convenient for bringing battery inside during the off-season. Battery pack lasts up to 5 years with proper maintenance and storage.

REINFORCED POLY-PROPYLENE DECK

is super lightweight and strong! This light weight is what makes the NEUTON™ so easy to use. Plus, it resists the build-up of grass clippings better than steel decks and will never rust or corrode.

The NEUTON™ is the Only Lawn Mower that also TRIMS and EDGES!

The Revolutionary patented NEUTON™ Trimmer/Edger Attachment plugs into the front of your NEUTON™ Mower...no wiring, no tools required! It uses a self-advancing nylon cutting cord to TRIM horizontally or at a 45° angle...or EDGE vertically!

TRIM around trees, decks, shrubs, and other hard-to-reach spots.

EDGE along walks, drives, curbs, and landscape beds.

FOLDING HANDLEBARS

(no tools required) easily store out of the way, so the unit can fit under a bench or on its side (no need to worry, because there's no gas or oil to leak).

EASY TO RECHARGE!

Uses only about 10¢ worth of electricity to recharge the battery. The charger plugs into the battery as easily as a toaster plugs into an electrical outlet... there's no way to do it wrong!

INSTANT STARTING

with the gentle squeeze of the handlebar. Let go and the motor and blade stop right away.

POWERFUL 21 AMP MOTOR

is quiet and virtually maintenance free. No more tune-ups, pull-starting, fouled spark plugs, or messing with oil and gasoline!

EASY, ONE-LEVER HEIGHT ADJUSTMENT

changes the height of all four wheels at once, without tools. Select from six different mowing heights — from 1-1/2" to 3-1/2" — in seconds, to suit your grass conditions.

Get Even MORE Versatility and Value with these Attachments!

Trimmer Attachment

This unique, patented attachment turns your NEUTON™ Mower into an easy-rolling trimmer and edger. Attaches simply by plugging into the front of the mower... no wiring or tools needed!

Spare Battery

Simply lift out the battery after 60 minutes of mowing, drop in a freshly charged battery, and start mowing again in seconds. (When other battery-powered mowers run out of charge you have to wait for hours while their onboard battery systems recharge.)

Rear Bagger/Grass Catcher

Can be installed and removed in seconds, without tools. It has a large, comfortable handle for carrying the bag and a separate handle to use when emptying it. Made of heavy-duty nylon mesh, so you can see when it is full.

Mulching Kit

The mulching plug closes off the rear discharge area, and the mulching blade chops clippings into small pieces... so there's no need to rake!
