BRIGGS & STRATTON 900 SERIES

ENGINE (9.0 ft-lbs torque):

Overhead valve, cast-iron cylinder sleeve, 2 year engine warranty for residential use; 1 year for commercial use.

COLLECT ACRES OF LEAVES WHILE YOU RIDE!

With the DR® LEAF and LAWN VACUUM

you can reduce an annual chore that used to

take days down to mere hours. The inlet

hose on the LEAF and LAWN VACUUM

attaches to the discharge chute

of your riding mower's deck.

A massive impeller

creates an 85 mph

suction force that

instantly cleans

your lawn of leaves,

grass clippings, pine

needles and other

yard debris. The

debris is then

chopped into a fine

mulch (up to 1/10th

its original volume!)

and deposited into a

hopper that's easy to

dump when your

work is done.

BUILT WITH PRIDE

All DR LEAF and LAWN VACUUMS
are proudly made in the USA.

**13.74 COMMERCIAL
MODEL WITH
CHIPPER**

POLYETHYLENE COLLECTOR BOX is rugged, impervious to weather, and knocks down easily for storage.

PATENTED SHARK TEETH™ IMPELLER BLADES shred vacuumed material to as much as 1/10th its original volume!

PATENTED CENTRIFUGAL SEPARATOR™ uses centrifugal force to deposit materials into the collector box with little or no allergy-causing dust expelled into your working environment.

WELDED STEEL IMPELLER is so strong it carries a Lifetime Warranty against bending or breaking!

BUILT-IN CHIPPER on select models handles branches up to 2 inches in diameter.

PROTECTED BY A 2-YEAR WARRANTY against defects in materials and workmanship in residential use; 90 days commercial use.

9.0 & 13.74 COMMERCIAL MODELS WITH CHIPPERS

The models of choice for really big lawns and professional use. Or for those who simply want the best.

Extra capacity allows you to collect more leaves before unloading. Plus, the extra power means improved suction in all conditions, so you can go faster. Features a pivoting pin hitch for excellent maneuverability in tight spots.

• Capacity: 315 gallons • Chipping Capacity: 2" diameter

BRIGGS & STRATTON 900 SERIES ENGINE (9.0 ft-lbs torque):

Overhead valve, cast-iron cylinder sleeve, 2 year engine warranty residential use; 1 year commercial use.

Manual- or Electric-Starting.

SUBARU/ROBIN ENGINE (13.74 ft-lbs torque):

Overhead cam, cast-iron cylinder sleeve, 3 year engine warranty in residential or commercial use. Electric-Starting.

This is the very best air cooled engine we've ever tested. Packed with long-life features and designed to produce more power than standard engines in its class. Truly professional grade.
