

Letter of Reference

Wilcox Bodies have depended on W.E. Enterprise for supplying all of our power requirements installed on our vehicles for the past 25 years. Their expertise in this field gives us “peace of mind” that the job will be done right and will meet CSA standards allowing us to deliver a certified vehicle to the end user.

In todays fast pace market it is so important to supply a product that will lead the way in quality and innovation and we can do that by using certified suppliers.

As the Sales Manager for Wilcox Bodies (33 years of service) I would strongly recommend W.E. as your power supplier.

Regards,

Albert Ribeiro
